Add emergency text message alerts to your cell phone:

- http://wustl.cleartxt.com/

Department Disaster Planning template:

- http://ehs.wustl.edu/emergency/dptemplate.doc

What we need from you:

1. Confirm that your HRMS contact information is correct, including home phone number, cell phone number and campus address, as well as whom to contact if you are ever injured. Update this information whenever there is any change.

2. If you have not already done so, go to http://wustl.cleartxt.com/ and register to have WU emergency text messages sent to your cellular phone(s). Contact Bill Orrick, borrick@wustl.edu, 935-4599, for more information or assistance.

3. Check with your departmental business manager, to find out who are your departmental emergency coordinators and get from them the most current copy of your departmental emergency plan. (Look at http://ehs.wustl.edu/emergency/dptemplate.doc and http://ehs.wustl.edu/emergency/emergencies.htm for reference and assistance.) If your department does not have a plan, or the plan is out of date, volunteer to move forward your department’s emergency planning efforts.

4. You will not be able to support the University during a regional event, unless your family and loved ones are safe. Contact Mark Bagby, WU Emergency Coordinator, bagbym@wustl.edu, 935-9261, to get copies of the “Missouri You Can Be Ready in 3” information, which will help you and your family prepare for emergency incidents. (Pamphlets are available for everyone in your department.)

5. Contact Mark Bagby to get copies of the “Academic Aftershocks” video, which shows the impact of an earthquake on California State University Northridge, and slides on lessons learned by Tulane University and Louisiana State University, from their experience during the Katrina flood, to understand the potential problems that we may face during a major incident. Work with your departmental emergency coordinators on business continuity plans for your teaching, research, outreach, and clinical care activities, as well as protection of students, faculty, staff and visitors.
