Sanitary Manhole Lid Off

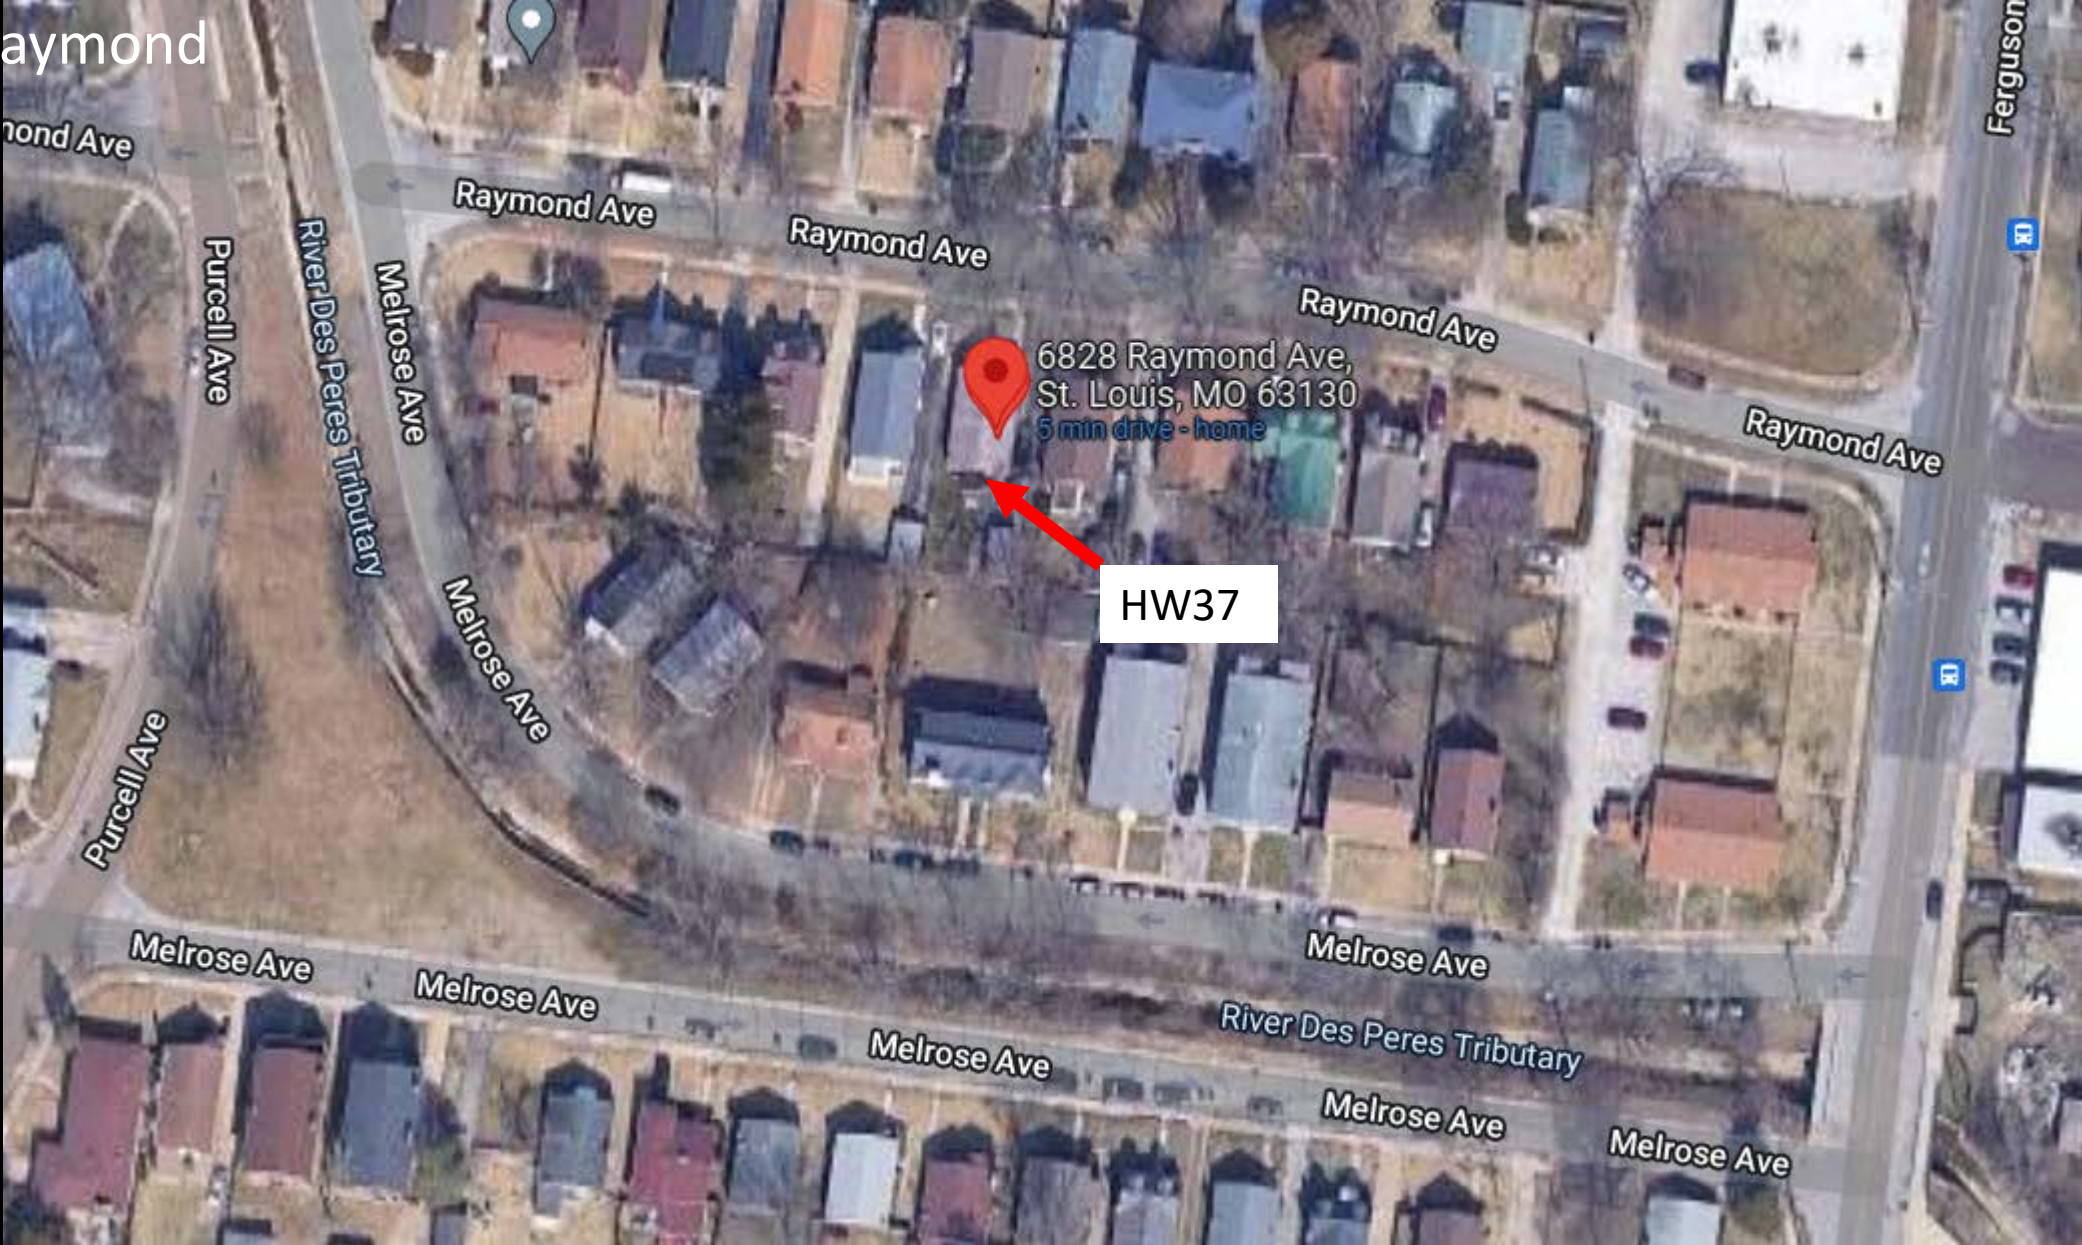

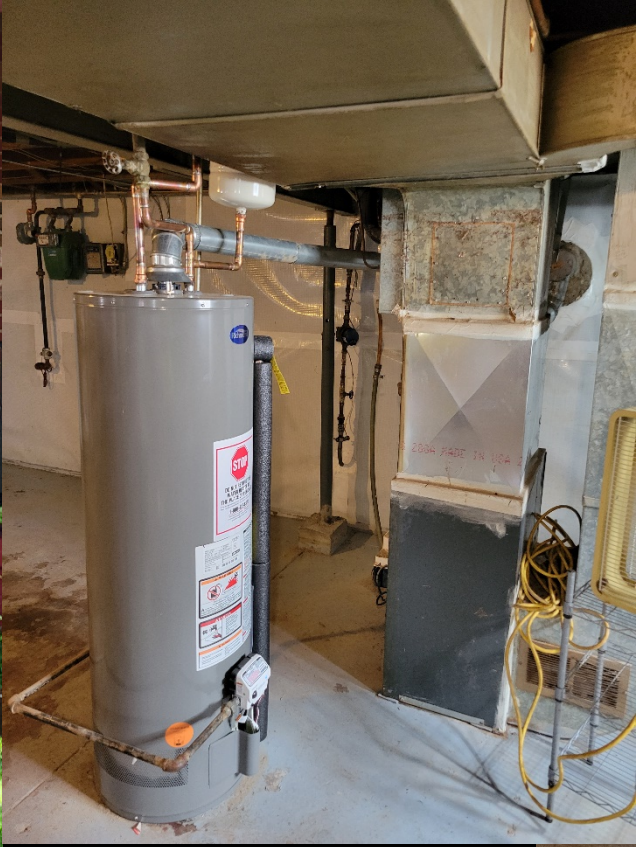

Sanitary Manhole Lid Off

River des Peres, Northeast Branch

6828 Raymond

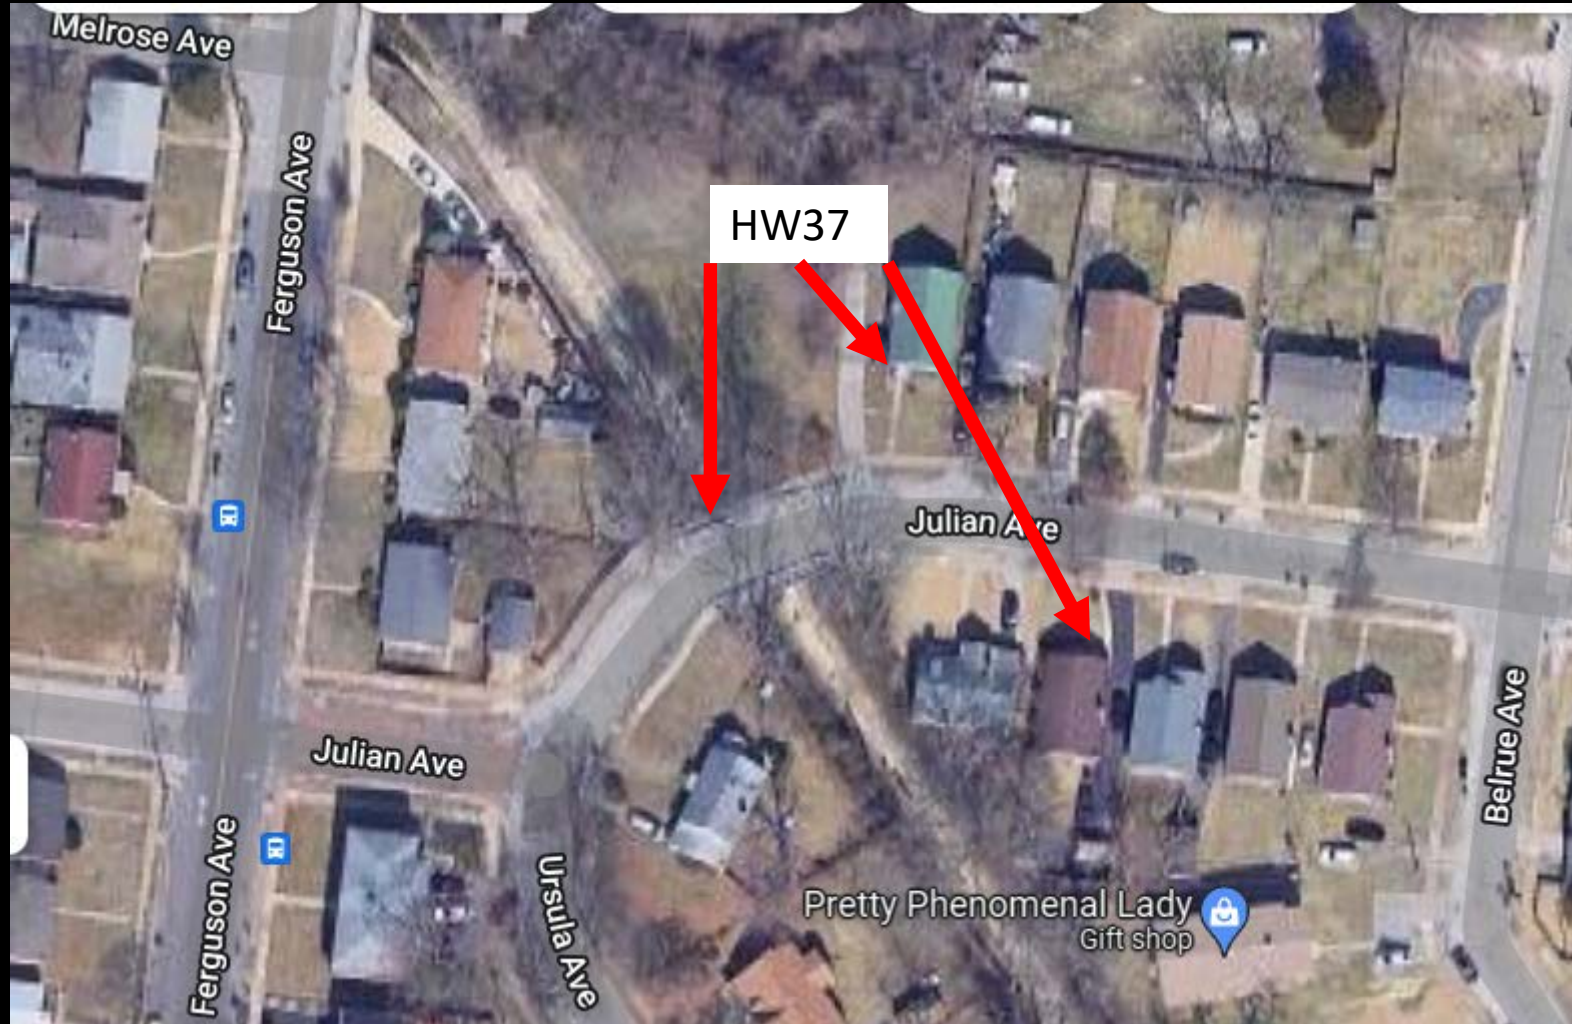

High water mark on HVAC duct next to hot water heater. Resident reported flooding on street and around house. Water pushed in the basement door and nearly filled the basement.

River des Peres, Northeast Branch

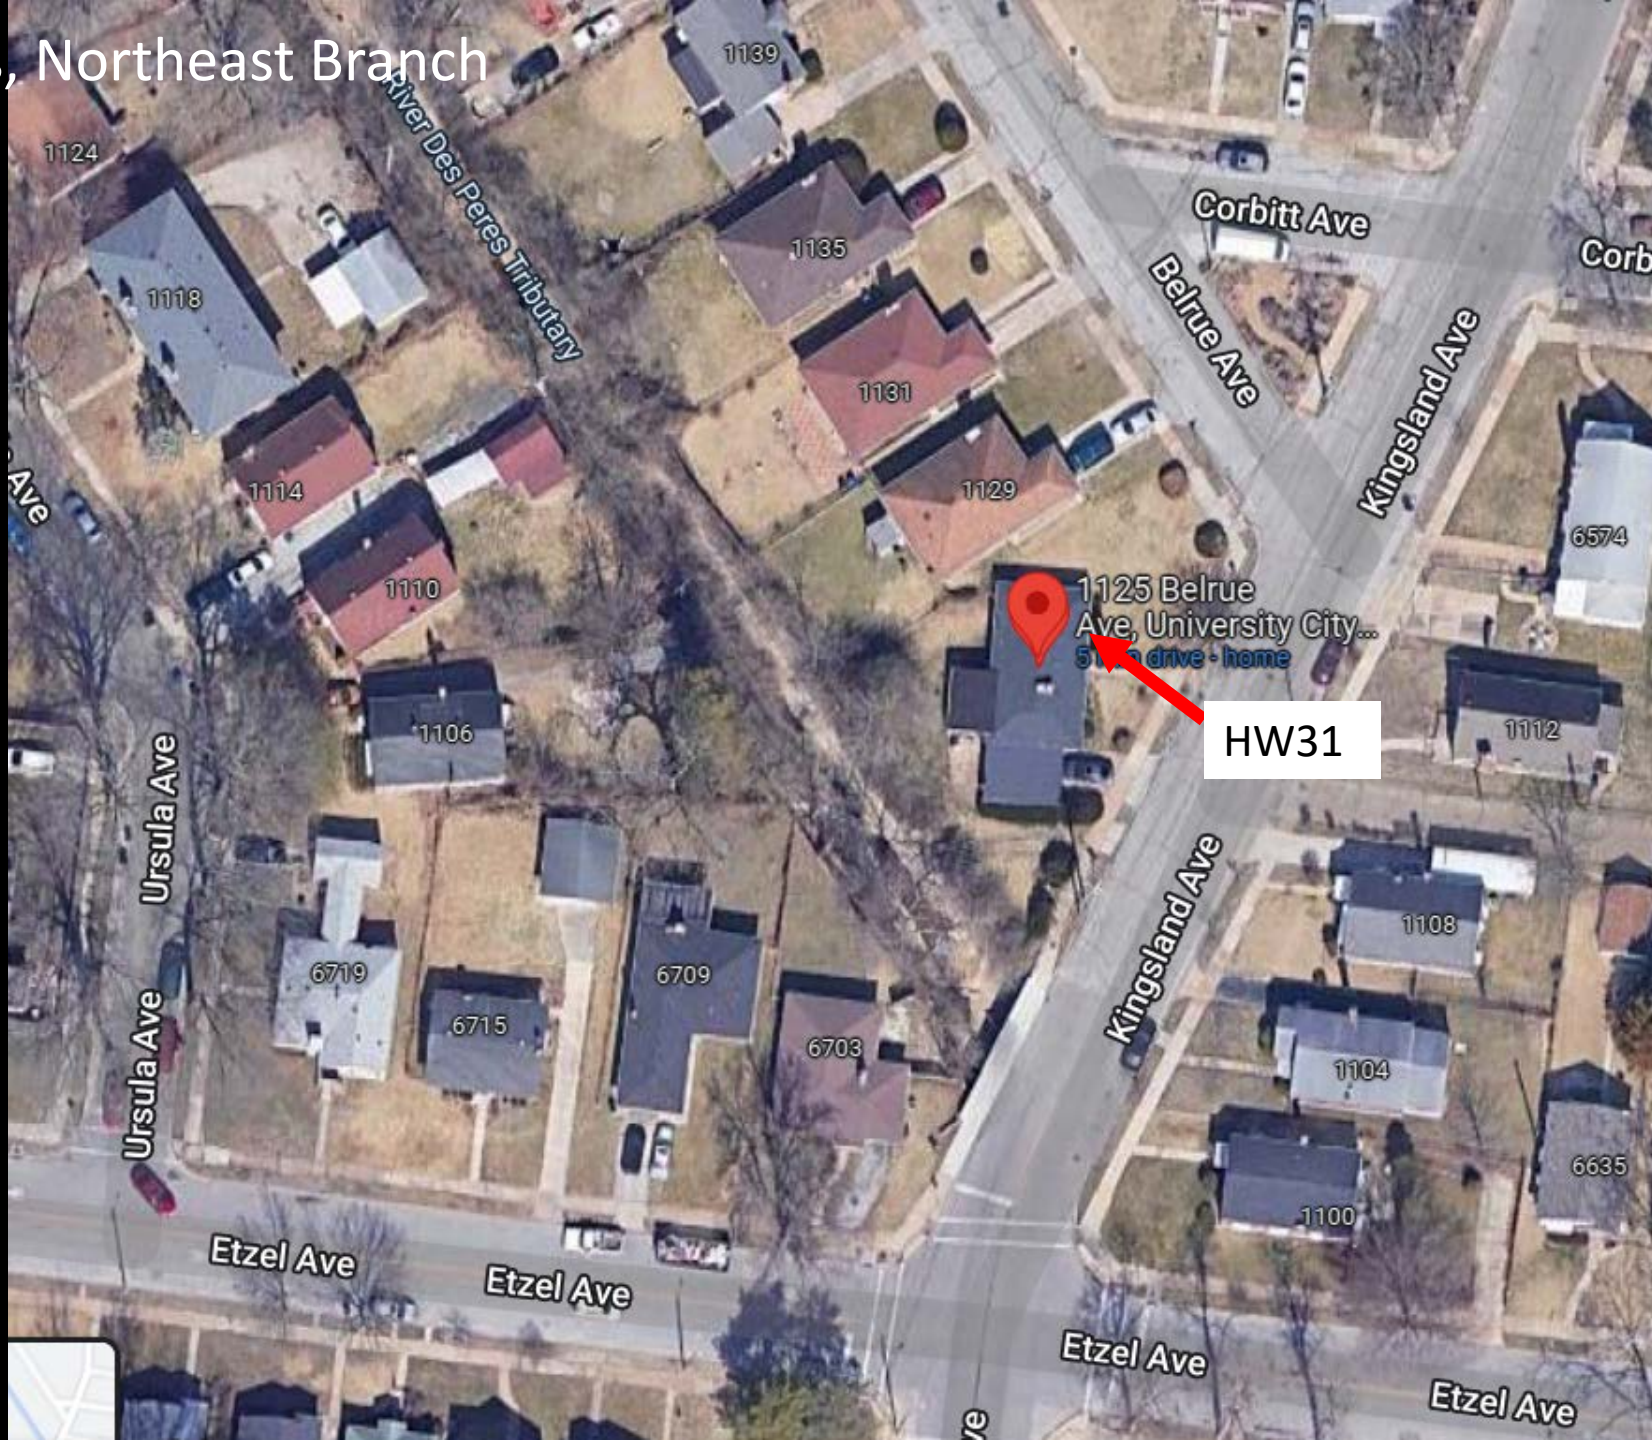

Julian Ave Bridge over Northeast Branch, 6752 Julian, 6763 Julian

A resident and her grandson described that she stepped out of bed onto water. Her bed is on the main floor of the house. She came out on her front porch at ~6AM and said that water in the creek was level across the street. She said water flooded the street at least up to the intersection of Julian and Bellrue. Her neighbor at 6763 reported flooding on the main floor as well. There were no marks to show flooding levels in the house or in the basement, so I could not verify these statements.

River des Peres, Northeast Branch
