STUDENT OATH

I commit myself from this day forward to the medical profession.

I pledge that:
I will make my patient my foremost consideration as I strive to promote health and quality of life through education, prevention, and care;
I will value the trust my patients place in me and endeavor to build that trust through compassion, honesty, and excellence;
I will recognize, seek to understand, and respect each patient's individuality and autonomy;
I will educate and empower my patients and their families to make choices that honor their values and beliefs;
I will listen to my patients so that I may learn how to best serve them.

I pledge that:
I will embrace my humanity and care for myself in order to best care for others;
I will recognize my limitations, act within my capabilities, and seek assistance from my colleagues;
I will navigate medicine's complexity with my best judgement, hold myself accountable for my actions, and seek forgiveness.

I will dedicate myself to a lifetime of learning, teaching, and advancing the art and science of medicine;
I will serve my profession with integrity and empathy;
I will respect the unique contributions of all members of the healthcare team;
I will mentor and teach others, as others mentor and teach me.

May I hold fast to the ideals and passion with which I take this pledge.

This oath I make freely and upon my honor.
